Dear Aquatics
(Salutation)

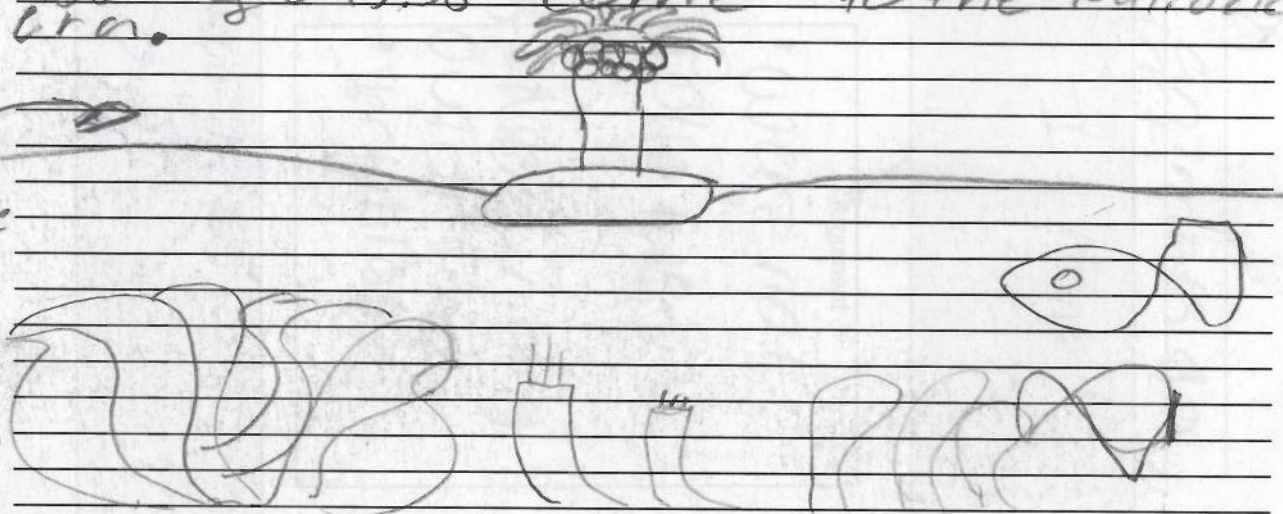

Hi im Anna Fish and I think you should come and move to the Paleozoic era. There is a lot of sea for all of us. We dominate the era and our oceans aren't polluted.

There will be no ^{extinction} of a certain breed of an aquatic animal. I'm sure of that because there is no fishing that means there will be no running out of food.

The water is cold which is healthier for us. And very little land which means more places to live. You will be with your kind of vertebrates.

There is less harm in these oceans. There is a lot of room for you guys. So come to the Paleozoic era.

Here's
